
THE DIGITAL FUTURE STARTS NOW !

A Proposal for the New Digital Futures Club IT Equipment

- **PROPOSED BY:** SYEDA FAIZA ASLAM
- **STUDENT ID:** CT-25064
- **COURSE:** EF-101 IT Fundamentals & Applications
- **DATE OF SUBMISSION:** NOVEMBER 15, 2025

NED UNIVERSITY OF ENGINEERING AND TECHNOLOGY

OUR VISION: BUILDING A TECH HUB

The Problem We Face:

Presently, we do not have dedicated resources and equipment specially earmarked for the purpose. This makes collaborative projects slow and administrative work harder to manage.

Our Solution:

We propose utilizing our \$2,500 grant for building a central "Digital Hub", which is a set of modern, reliable tools enabling students to:

- **Learn Faster:** Host workshops with hands on coding.
- **Seamless Collaboration:** Work in team on a website or app projects as a team.
- **Manage Better:** Ensure the club runs smoothly with reliable administration machines.
- **Print Professionally:** Create eye catching posters and flyers in color

The aim of our new club is all about collaboration, learning, and making cool stuffs. Within this seed funding, we are creating a "Digital Hub", which is a dedicated space and equipment devoted to make coding smooth, presentable projects, and simple club management. We are investing with in the tools that we need to succeed right from day one. This proposal aims to ensure how we can make that happen by staying within our budget, and build the foundation for a funtastic club experience

OUR SHOPPING LIST: POWERING OUR PROJECT

We have picked out high quality, affordable friendly equipment for all our need.

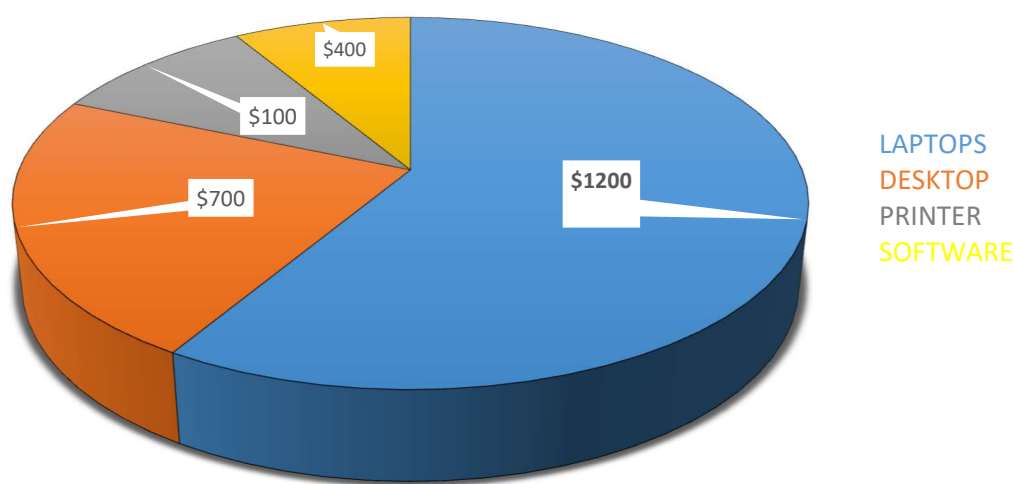

THE SHOPPING LIST :

ITEM	SIMPLE DESCRIPTION	QUANTITY	UNIT PRICE	TOTAL PRICE
LAPTOPS	Fast for admin	2	\$600	\$1200
DESKTOP	Powerful shared project station	1	\$700	\$700
PRINTER	Color printing for posters	1	\$100	\$100
SOFTWARE	Operating system, backup solution	1	\$400	\$400

BUDGET BREAK DOWN (WE STAYED ON TRACK!)

We have allocated every dollar thoughtfully to maximize our impact.

Grant Allocation Overview (\$2,400 Total)

TOTAL PROJECT COSE	\$2400
GRANT RECEIVED	\$2500
STATUS	WITHIN BUDGET

SMART SOFTWARE & SECURE DATA

Above all, We need the right tools and a workable plan to protect our information.

ESSENTIAL SOFTWARE:

- **Windows 11 (OS):** The operating system that makes everything work smoothly.
- **Microsoft Office:** Essential for budgets, meeting minutes, and official documents.
- **VS Code (Free):** Our primary tool for learning coding and developing club projects.
-

OUR DATA SAFETY PLANS(Backup Solution):

Our backup strategy is to use a simple yet automatic cloud backup system (like google drive or one drive) to sync our all Important files and documents. This means even if a computer damages or gets stolen, our files, hard work member list and budgets are always safe and accessible, so we never lose progress.

LET'S PASS THIS PLAN

We have the vision, the plan and also we are within budget. So it's time to make the "Digital Future Club" the most technologically advanced club on campus.

NEXT STEPS:

- Review this proposal.
- Vote to approve the purchase plan.
- Start ordering the equipment
